

# Alde Compact 3010 HE Combi Boiler

3010-9013

Alde Compact boilers are designed to be flexible, installed in caravans, boats and other recreational vehicles. The boiler's all-round performance makes it suitable for even the largest applications.

- Heating and hot water provided by one unit
- Runs silently with low carbon emissions
- Fuel management system
- Capable of powering over 7.5 kW of radiator
- No service requirements
- Dual-fuel operates on both 230 V and LPG
- Draws less than 0.4 A from the battery
- Programmable control panel
- Can be combined with engine

Height:	310 mm
Width:	340 mm
Length:	490 mm
Weight:	14 kg
Gas output:	5.5 kW
Gas consumption:	245 g/h*
230 V output:	2.1 kW
Power consumption:	1 A max

\*Minimum, if on constant gas. Fuel management system can intelligently switch to electric to maintain temperature if desired
