

ALDE COMPACT 4000 D AND 4000 D PLUS

Freedom & comfort no matter season or terrain

- ✓ Stepless diesel burner
- ✓ Continuous hot water
- ✓ HVO100 compatible
- ✓ Heating and hot water
- ✓ Quiet and cosy hydronic heating
- ✓ 10 L hot water tank

Flexible diesel heater and water heater in a compact format

Enjoy the freedom of being able to use your vehicle's fuel tank, and have a constant supply of heat and hot water. Our new diesel-powered Alde Compact 4000 D is ideal for those who want to live an independent and free life in a motorhome or van.

More and more people want to take advantage of the large diesel tank, and the convenience it brings. Choose the Alde Compact 4000 D for a flexible, user-friendly and reliable heating system that will make your long journeys easier and more comfortable.

Access heat whenever you want and avoid the hassle of refilling gas cylinders when travelling abroad.

With Alde's extensive knowledge, you'll always come home to a warm and comfortable vehicle, no matter where your journey takes you. For decades, we've been giving our customers the freedom to experience the world with comfort and peace of mind.

Don't let anything stop you from exploring new places and enjoying the freedom of the road.

So much more than a diesel heater

The new product range, Alde Compact 4000 D, are our first diesel/electric heaters. This buildable and customisable system is ideal for a wide range of vehicle types and allows you to combine electricity and diesel - or use each energy source separately.

The Alde Compact 4000 D provides both heat and hot water. The unique hydronic system spreads the heat via pipes and convectors and is suitable for both large and small vehicles.

Let nothing limit you on your next adventure.

- ✓ Hydronic heating keeps the heat 20 times better than air
- ✓ Quiet and gentle heating
- ✓ Heat distribution using convection technology
- ✓ Heating and hot water
- ✓ Multiple possible energy sources

How independent do you want to be?

Our heater and advanced heating system, designed and manufactured in Sweden, are developed to withstand the most challenging conditions that the Nordic climate offers.

For those who want to live independently and enjoy an active life on the road, Alde offers the perfect solution. Our robust heater ensures that you always have heating and hot water, providing the opportunity to discover new places without compromising on comfort.

Go even further, and be even freer with Alde.

User-friendly control panel

A simple, modern and easy-to-navigate control panel.

2 in 1-solution

Get heating and hot water in one. Spacious 10 L hot water tank.

Alde ICT

Smart technology and algorithms that sense your surroundings for you.

Utilise the vehicle fuel tank

Ideal for off-grid campers. Runs on various diesel fuels, including EN590 and HVO100, making the heater even more versatile.

It should be easy for you to select energy source, set the temperature or hot water level. The Alde control panel is simple, modern and easy to navigate.

INTELLIGENT CLIMATE TECHNOLOGY (ICT)

Intelligent technology and user-friendly control panel

Alde makes it easy to control temperature, hot water and accessories. With Alde's intelligent climate technology, you automatically get smooth and efficient temperature transitions in your vehicle. The right power level is selected for the set temperature, and the Night and Day Mode functions allows you to select settings for different times of the day - automatic but fully customised to your needs.

✓ No temperature fluctuations

With our new, refined ICT, smart logic and algorithms control your Alde system.

✓ Compatible with Truma AC

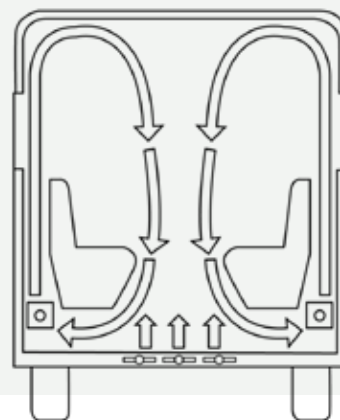

Add air conditioning and control it seamlessly from the same control panel.

✓ Two-zone system

For example, let the bedroom area be set to a lower temperature, while the kitchen/sitting area can have a higher temperature.

Alde Compact 4000 D Plus

Choose between two models: Standard or Plus. The Plus model offers extra comfort and takes up as much space as the standard model but provides continuous hot water.

No cold spots

Thanks to the efficient convection-based heating system and smart algorithms, having the heating system on = increased comfort, better for your vehicle and interior. No cold spots or bad air.

Flexible and customisable system with many accessories

- ✓ AquaClear water purification system
- ✓ Underfloor heating
- ✓ Engine heat exchanger
- ✓ Heating mat for the drivers compartment
- ✓ Booster fan system

Different lifestyles

The winter camper

Warm frozen feet with Alde underfloor heating. Our booster fan provides cosy warmth in the cab.

The long-distance camper

With diesel heating, long journeys are smoother. Take the opportunity to seamlessly connect to Truma AC. Opt for the AquaClear water purification system and get clean and safe water directly from the vehicle's fresh water tank.

The adventurer

The high-altitude function of the diesel heater ensures stable combustion, which favours fuel consumption. Our booster fan removes humid air and dries wet clothes, so you're ready to go out again the next day.

FEATURES	COMPACT 4000 D	COMPACT 4000 D PLUS
Length x Width x Height	500 x 375 x 310 mm	500 x 420 x 310 mm
Weight	14 kg	15 kg
Fluid volume, glycol tank	3,5 litres	3,5 litres
Fluid volume, water tank	10 litres	10 litres
Max. pressure glycol circuit	0,05 MPa (0,5 bar open system)	0,05 MPa (0,5 bar open system)
Max. pressure water circuit	0,3 MPa (3,0 bar)	0,3 MPa (3,0 bar)
System temperature	max +90°C	max +90°C
Battery voltage	12 V DC	12 V DC
12 V power consumption	max. 20 A	max. 20 A
Fuse 12 V	2 x 15 A	2 x 15 A

ENERGY SOURCES	
DIESEL	
Effect	1-6 kW stepless
Consumption	0,1 to 0,6 L/h
ELECTRICITY	
Voltage	230-240 V AC 50 Hz
Fuse size	16 A
Power step 1	1050-1145 W
Power step 2	2100-2290 W
Power step 3	3150-3430 W

We understand what it takes when you want to feel free on the road. Since 1966, we have been developing hydronic heating systems, and since then we have dedicated ourselves to creating functional, robust and high-performance products. Whatever the terrain or season, our diesel heater, the Alde Compact 4000 D, delivers both heat and hot water to your recreational vehicle.

With Alde, away feels like home.
