

5 year corrosion protection Endlessly recyclable

Only the following *branded* antifreeze products are approved for use in Alde heating systems in the UK. Use of non-approved products may result in the invalidation of Alde warranty.

- Alde Protective Premium G12++ & G12evo
- Comma Xstream G40
- Fuchs Fricofin DP
- VW Group G12evo

These products are **magenta** in colour
Concentrated products must be mixed 50:50 with deionised water

Waste antifreeze *must* be disposed of at select recycling centres or by registered waste carriers. Please note that in North America there is a different list of Alde-approved antifreeze products with a completely different chemical base.
